

As we celebrate the 28th Anniversary of the Association of Caribbean States, we also wish to reaffirm the organisation's commitment to the continuous promotion of regional cooperation and collaboration, and also take this opportunity to remember that which we have accomplished.

For almost three decades the ACS has been continuously working towards improving the lives of the citizens of the Greater Caribbean. The mission of the ACS is one that grows and evolves to adapt to the ever-changing challenges that are shared by its membership, and as we head into the future our cooperation between members and other partners will be instrumental in our longevity.

As part of the celebrations, we will have the honour of receiving and welcoming ACS members, an opportunity to strengthen ties, remind and refocus ourselves on the organisation's ambition, and prepare ourselves for future endeavours.

Happy ACS anniversary!
